EDUCATION

Bachelor of Science in Information Technology

City College of Calamba
2018 – 2022

SKILLS

- I have studied a variety of programming language before; in my first year college, I started with C as my first language, which provided as a good foundation.
- I have experience using HTML, CSS, Bootstrap and JavaScript as I have learned how to create a clean and responsive front-end
- I have basic knowledge in Python, and MySQL

LANGUAGES

English
Filipino

WORK EXPERIENCE

Department of Information and Communications Technology

IT Intern

- Moderator for online trainings and webinars
- Designer of content for social media platform promotional events
- Designing presentations for the DICT program events

PROJECT

Sales and stock management for Dod's store with SMS notification

Recent School Capstone Project:

<https://github.com/kstnrm/Dodz-.git>

- This system was intended for our capstone project, and the client is a local grocery store owner. We want to help them transition from manual inventory to a software inventory management system.
- The system is created in C# language. The frontend is made up of HTML and CSS and MySQL for database.
