SUMMARY

Web Designer with nearly 4 years of experience creating responsive websites and user-friendly interfaces for corporate and international clients. Skilled in Figma, wireframing, prototyping, and visual design, with foundational knowledge of HTML, CSS, and JavaScript. Focused on usability, responsive layouts, and consistent digital experiences.

EXPERIENCE

Web Designer, Rightcore Inc. — Makati City

Japan-Based Company | November 2022 – June 2026

- Designed and delivered responsive website layouts using Figma, focusing on usability, visual clarity, and client-specific requirements.
- Created wireframes and interactive prototypes to communicate design concepts, information architecture, and user flows.
- Developed front-end interfaces using HTML, CSS, and JavaScript, translating design concepts into functional, responsive web pages.
- Produced branding and marketing assets, including logos, banners, and promotional materials, for Japanese business and corporate clients.
- Adapted visual design approaches to suit Japanese audiences while maintaining brand consistency and professional presentation.
- Collaborated with team members and clients to refine requirements, incorporate feedback, and improve overall user experience.

Studio Artist / Web Designer, WPP Production — BGC, Taguig City

Project-Based Contract | August 2026 – September 2026

- Produced high-quality design assets for a major global client using Adobe Photoshop.
- Ensured visual consistency and adherence to brand guidelines and production requirements.
- Maintained quality and accuracy in a fast-paced design production environment.

PROJECTS

Personal Portfolio Website —kristinerein.github.io/portfolio

- Designed and developed a personal portfolio to showcase web design projects and creative work
- Built using HTML, CSS, and JavaScript with a focus on clean UI and responsive layout
- Demonstrates practical experience in UI design, layout structure, and front-end implementation
